SEABUBBLES

PIONEERS IN WATER MOBILITY

SeaBubbles designs and builds the latest generation craft with the motto “Zero Wave, Zero Noise, Zero Emissions” thanks to the combination of electric propulsion and fully automated hydrofoils.

Designed for **passenger transport**, the SeaBubbles offer an eco-friendly and enjoyable way to explore waterways, rivers, and lakes. Suitable for mobility, sight-seeing or pure leisure, discover our range.

By reducing our impact and flying above the water, we experience the most attractive luxury there is : the beauty of nature.

OUR LUXURY LINES OF ZERO EMISSIONS BOATS

An aerial photograph of a small, dark boat moving across a vast, calm lake. The boat leaves a white wake behind it. The lake's surface is a deep blue, reflecting the clear sky and the surrounding mountains. In the background, a range of rugged mountains with patches of snow rises against a bright blue sky. The sun is low on the horizon, creating a shimmering path of light across the water's surface. The overall scene is peaceful and scenic.

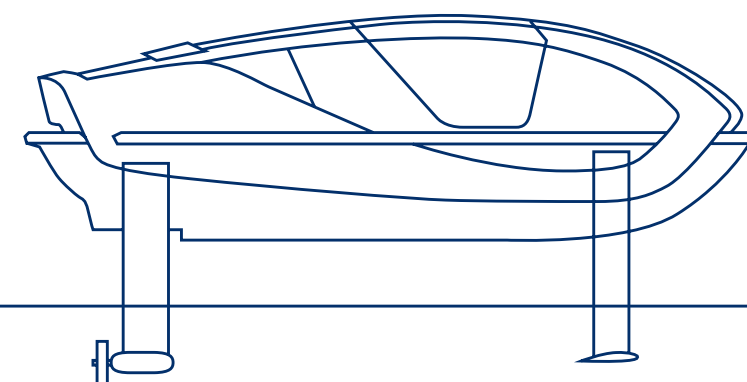

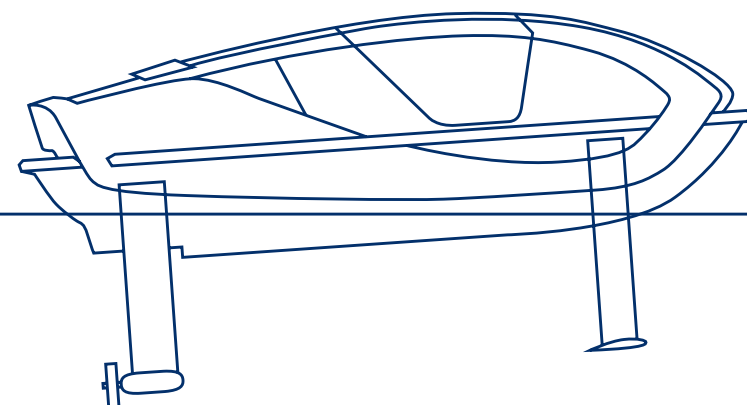

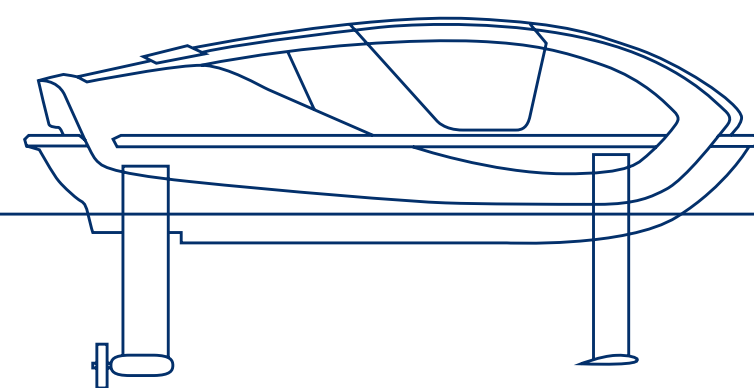

**ZERO WAVE
ZERO NOISE
ZERO EMISSIONS**

Crystal waters of Annecy Lake

- ZERO WAVE -

The futuristic foilers offer an extraordinary in-flight stability, opening waterways to every user as it reaches the comfort of a plane gliding over water.

Designed specifically for the SeaBubbles hull, the carbon-fiber double T-shape foils allow a **reduction of 40% of the energy** used, compared to a conventional craft and make the ride smooth both for the passenger and the surrounding ecosystem.

- ZERO NOISE, ZERO EMISSIONS -

Our care for nature drove us to develop a clean propulsion system for our boats.

Pairing foils with e-propulsion enables a higher autonomy, at a higher speed, in silence.

100kg CO₂ emissions saved per hour of navigation

Our boats are declined in two lines :

e-line : 100% batteries

hy-line : Hybridized with a hydrogen fuel cell

- WHY CHOOSE SEABUBBLES -

EXPERIENCE NOVELTY

- Iconic design
- Sustainable boating experience
- Sensational feeling of flying
- Unprecedented passenger transportation
- Cozy ride

OPERATIONAL BENEFITS

- 90% cost savings on fuel (e-line)
- Low maintenance on the engines, batteries or fuel cell
- Easy mooring (dual pods located under the wings)
- Easy assisted piloting
- Manufacturer warranty

The e-line

e-line : the Bubble

Discover the first model of SeaBubble's creations. The 5-seater car-shaped flying boat cruises at 10 knots (18 km/h) with an autonomy of 1h30. This foiler has the quickest take-off of the market, at only 7 knots, the hull leaves the water. Ideal for low speed areas that require minimum disturbance on the water surface.

Available in two versions the Bubble offers a fully enclosed cockpit to cruise in any weather condition, and a cabriolet open sky to enjoy the breeze and warmth of sunny days.

**TAKE-OFF IN 5 SECONDS
FLIGHT FROM 7 KNOTS
100% BATTERIES
OPEN SKY OR COCKPIT**

e-line : the Bubble

Price	from 290 000 € (excl. VAT)	
Length overall	5 m	
Beam overall	2.5 m	
Water draft	archimaedian	1.6 m
	in flight	1 m
Air draft	archimaedian	1.4 m
	in flight	1.7 - 2 m
Lightweight displacement	1 100 kg	
Crew	1	
Passengers max	4	
Onboarding platform	0.45 m	
Category D - 4 Bft		
In-house Flight control system	Speed take-off	7 kn
	cruise	10 kn
	max	13 kn
Autonomy	range	30 km
Nominal energy	20 kWh	
Fast Charge	32A 2x2.7 kW / 20-80% 2 hrs

e-line : SmartBubble

This 6 to 12 seater is the newest edition of our e-line.

**MORE SPACE
BETTER PERFORMANCE
RETRACTABLE FOILS
FULLY ELECTRIC**

e-line : SmartBubble

Price	from 750 000 (excl VAT)	
Length overall	7.98 m	
Beam overall	3.46 m	
Water draft	foils up / down	1m / 1.8 m
	in flight	1 m
Air draft	archimaedian	2.1 m
	in flight	3.1 m
Lightweight displacement	3 100 kg	
Crew	1	
Passengers max	10	
Onboarding platform	0.75 m	
Category C - 6 Bft		
Speed	take-off	10 kn
	cruise	18 kn
	max	22 kn
Range	27 nm	
Nominal energy	126 kWh	
Electric motors	2 x 45 kW	
Fast Charge	20-80% 1h	
Regular Charge	20-80% 10h	
Air Conditioned		
Flexible interior & exterior layout		

Gross data, subjected to final testing

The hy-line

hy-line : SeaBubble H₂

**EXTENDED AUTONOMY
FAST CHARGING TIME: 4MN
EMITS ONLY WATER
SUPPORTS LOCAL INITIATIVES**

The SeaBubble H₂ is a real convergence of innovation. As pioneers in water mobility, we strived to create a capsule of innovation that will support the energy transition by offering a flagship that stands out. The aim: adapting and hybridating a fuel cell to a small-scale commercial vessel.

The fuel cell allows largely extended autonomy with fast charging time : 4min on-shore.

Moreover, the only byproduct is water, and only water!

hy-line : SeaBubble H₂

Price	from 950 000€ (Excl VAT)	
Length overall	8 m	
Beam overall	3.5 m	
Water draft	foils up / down	1 m
	in flight	1 m
Air draft	archimaedian	2.1 m
	in flight	3.1 m
Lightweight displacement	3 100 kg	
Crew	1	
Passengers max	12	
Onboarding platform	0.75 m	
Category C/D - 4 Bft		
Air Conditioned		
Flexible interior layout & exterior design		
Speed	take-off	10 kn
	cruise	18 kn
	max	22 kn
Range	45 nm	
Fuel Cell	60 kW	
H2 Storage	2 to 3 x 3.6 kg at 350 bars	
Batteries	4 modules NMC 88 V	
Nominal energy	22 kWh	
Electric motors	2 x 45 kW	

Gross data, subjected to final testing

SeaBubbles Academy

Create your own SeaBubbles franchise with the support of our team.

Be the first to benefit from the strong image of SeaBubbles, offer the SeaBubbles experience to your customers, raise awareness on low-carbon technologies and sustainable mobility, on your waters.

Buy or rent the boat and offer packaged tours to experience the unique sensations of flying onboard a SeaBubble.

- Corporate events
- Local tourism
- Zero emissions water taxiing

Live the SeaBubbles Experience

Stand out by offering your guests an exclusive, futuristic adventure onboard of the flying boat. The Seabubble is a 100% electric 4-seater craft mounted on hydrofoils. The Bubble literally flies above the water without noise, without waves, without emissions.

- THE FLIGHT EXPERIENCE -

Privatise the Bubble on your waters.

Imagine arriving on board a boat that's unique in the world, flying up to your pontoon and enjoying a moment in suspension.

Above 4 passengers, we tag along with one or two zero-emission escort boats so you can treat your guests to a SeaBubbles first flight. Onboard, our experts fill you in on all the innovations integrated.

Possibility to organize a cocktail.

Number of participants: 4 to 20 pax

Duration: 1 to 2hrs

Starting from 1 490€ excl. VAT

- THE PIONEER EXPERIENCE -

Give your employees an immersive experience at the heart of SeaBubbles.

Meet at the company's headquarters on the shores of Lake Annecy.

The programme includes collaborative workshops on hydrogen and foils, a visit of the laboratory and a SeaBubble flight experience.

Seminars, incentives or team-building etc, we cover topics such as energy efficiency, structural innovation and decarbonation.

Location: Annecy and surroundings

Duration: 2 to 3hrs

Number of participants: 10 to 40 pax

Starting from 4 490€ excl. VAT

SeaBubbles Mobility Solutions

A Turn-Key Solution

SeaBubbles Mobility Solutions is a complete ecosystem approach to the implementation of the SeaBubbles solution in your city.

- Federation of operators and institutions
- Pontoon electrification
- Certification of the Bubbles for local waters
- Training for piloting and maintenance via the Seabubbles Academy
- Public relations support
- Booking platform management
